RE: Request for DepEd Advisory for School Year 2023-2024

Dear Sir/Madam:

A Perfectly Clear Sky to you!

The extreme consequence of catastrophes brought by severe changes in our climate system had brought the entire humanity countless sufferings including loss of lives and damage to properties. Such aftermath affects not just one particular area but the entire geographical zone worldwide.

In the Philippines, the devastating effects of super typhoons such as "Yolanda," the extensive drought brought about by "El Niño" coupled with heavy rainfall due to "La Niña" and high intensity earthquakes have challenged the lives of many Filipino people leaving countless casualties. Climate System change which dramatically increases the effects of natural calamities such as these are offshoots of atmospheric movements.

Amidst these challenging threats caused by Climate Change, The Jhanyro Events Management Services (JEMS) proposes a suitable and effective educational activity aimed at promoting awareness on Environment & Climate Change and Astronomy & Space through the aid of modern and interesting teaching methodologies. This can be a valuable addition to other aspects of the teaching/learning process which could help the students synthesize formerly disparate pieces of information into a more holistic understanding.

JEMS is proud to introduce our Comprehensive Astronomical and Environmental Awareness Program which includes the following activities:

- Activity 1     3D Film Viewing
- Activity 2     The Gallery and Interactive Exhibit
- Activity 3     Workshop/ Planetarium

there will be more adventures to be created for more learning enrichment with relevance and social advocacy as JHANYRO Educational Entertainment Services commits itself to be a provider and partner of every school throughout the Philippines in bring out alternative programs to enhance the learning potential.

In line with this we will be conducting a school caravan nationwide. With your valuable support, we can achieve our goal in raising nationwide awareness and appreciation of the Environment and Astronomy through JEMS.

In connection, we humbly request an **Advisory letter** from your good office to conduct these **voluntary, non-compulsory** programs. Please give us a chance to conduct our programs and to bring JHANYRO events in to the far-flung areas of Mindanao, setting aside the fear of lawlessness in the countryside. Our dedicated team believes that these students/pupils should be given an equal opportunity as well.

For more information, please do not hesitate to contact us at 0909-545-0147 or may also email us at [jhanessflores@gmail.com](mailto:jhanessflores@gmail.com)

We look forward to your favorable response.

With highest esteem:

  
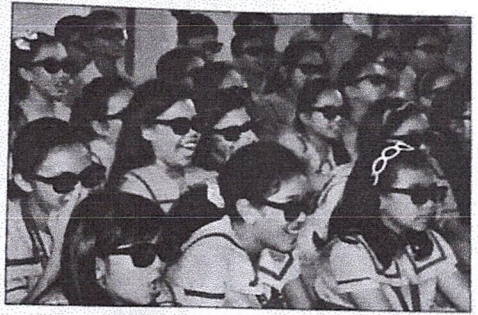

**DAVID G. TAGABUNLANG**  
 Marketing  
 JHANYRO Events Management Services

## OUR PROGRAM

Being the pioneer in integrating the broad topics of Environmental and Astronomical Knowledge, JEMS offer a wide range of interesting and highly educational shows, exhibits and other presentations where learning efficiency can reach its optimum level.

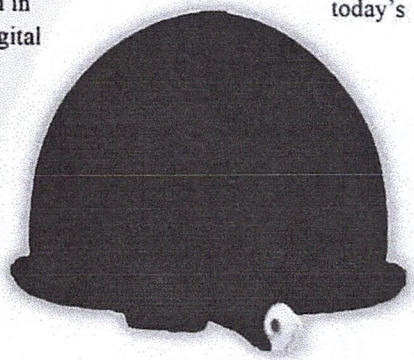

### 3D FILM VIEWING

One of the most pressing development issues today in our world is the serious threat of Global Warming caused by numerous factors. JEMS intends to educate the participants on fundamental concepts of Climate Change and its impact on our environment in the most entertaining way. The Film features the effects of Climate Change in Water, Land, Forest, And in Polar Region.

### DIGITAL DOME THEATER

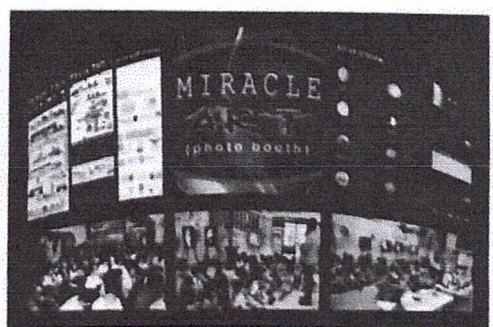

Be amazed by one of the most effective teaching approach on Science Education in modern times using a large 360 degrees (360°) format theater projection with digital surround sound that highlights an array of countless celestial objects. With this latest system, the participants can experience the stunning infinite beauty of the universe through its real time space simulation and celestial navigation. To make it even more exciting, our highly-trained lecturers will conduct live, interactive discussions and presentations in a fun and enjoyable way. The 360° dome environment provides the audience with a memorable learning experience in the field of Space Science Education.

### THE GALLERY

This display showcases variety of art exhibits and other amazing works of art that deals with Biological Diversity, Flora & Fauna Species, Astronomical Facts and Breakthroughs, Optical Illusions, Proper Solid Waste Management (in consonance with the Ecological Solid Waste Management Act No. 9003 series of 2000), the Power of 3R's (Reuse, Reduce & Recycle) and the Life Span of Common Garbage and Wastes. The exhibit includes detailed information on the itemized topics.

### INTERACTIVE GADGETS

Participants will be in total action as they can effectively aid in the proper understanding of certain subjects including body conduction, radio meter and tectonic and /or volcanic movements of the Earth's surface. With the help of our highly energetic and well-trained lecturers, participants discover the principles and ideas behind the mechanisms of every interactive gadget. Furthermore, the enticing cool devices will make them proactive with the lecturers while skillfully managing each gadget
